Equipment Description

Light-Structure System™ in 5 Easy Pieces™

- Pre-Cast concrete bases
- Galvanized steel poles
- Remote electrical component enclosures
- Pole length wire harnesses
- Factory-aimed and assembled luminaries

Benefits of your Light-Structure System™ with TLC for LED® Total Light Control technology

- Reduction of energy and maintenance costs by 50% to 85% over typical 1500w HID equipment
- BallTracker™ technology – targeted aerial light optimizing visibility of the ball in play with no glare for players
- Reduction of spill light and glare by 50% or more
- Guaranteed light levels of 50 foot-candles
- An unmatched warranty for up to 25 years that includes onsite maintenance
- Instant on/off ability
- Includes our Control-Link® System for remote on/off control and performance monitoring with 24/7 customer support

Notes

- Requires confirmation of field dimensions, pole locations, and Musco lighting design prior to providing quote(s)
- Based upon projects similar in scope, and is intended for preliminary planning purposes only
- Getting electrical power to the site, coordination with the utility, and any power company fees are the responsibility of the owner
- Assumes standard soil conditions – rock, bottomless, wet or unsuitable soil may require additional engineering, special installation methods and additional cost
- Price estimations based on 2012 IBC, 115 MPH wind speed, importance factor C. Projects located along coastal or mountainous areas may incur additional costs due to corrosion protection and higher wind speeds
- Field size of 360' x 160', with pole setbacks of 80' from field edge
- Assumes 80' tall poles
- Estimates based on 2021 pricing, does not include any taxes, and is subject to change
